

Corporate profile

We create all of the many spaces in which people
play, learn, work, live, relax, entertain...
a variety of space designs to touch all aspects of your day,
completely and seamlessly integrated.

We will happily consult with you about whatever your ideas might be -
and we will make it happen for you with a vision
that will be absolutely right for you, your company and your people.
Mitsui Designtec - the start of all your solutions to help
you create pleasant and effective spaces for living, work and relaxation.

As THE professional group of space-design for the Mitsui Fudosan Group, we meet the needs of each of our unique customers in every way possible. Additionally, as a member of the Mitsui Home group, responsible for the interior sales business since its inception more than 35 years ago, we lead the Japanese interior design and furnishings industry. Finally, as part of our continued growth in the future, we contribute positively to the improvement of environments supporting and encouraging the creative and social culture of our flexible and richly designed spaces.

Tadahiko Shibuya

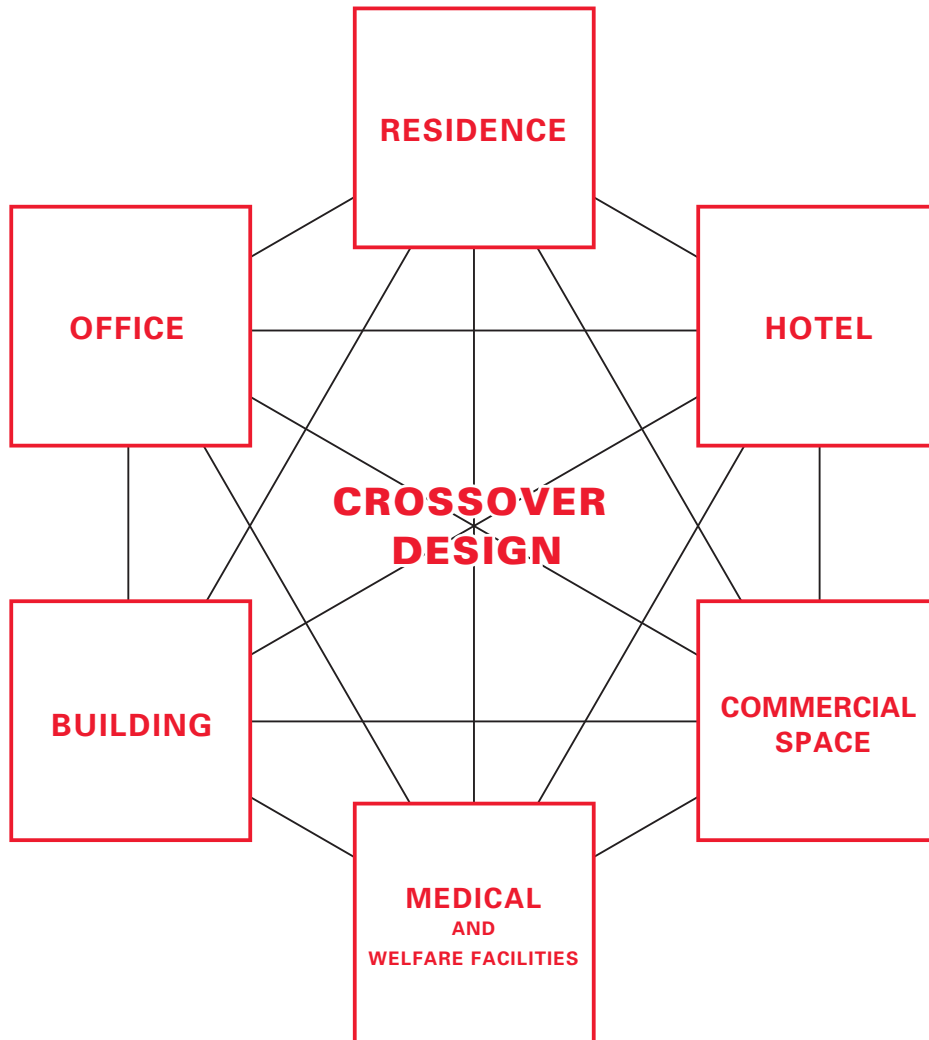

President and Chief Executive Officer

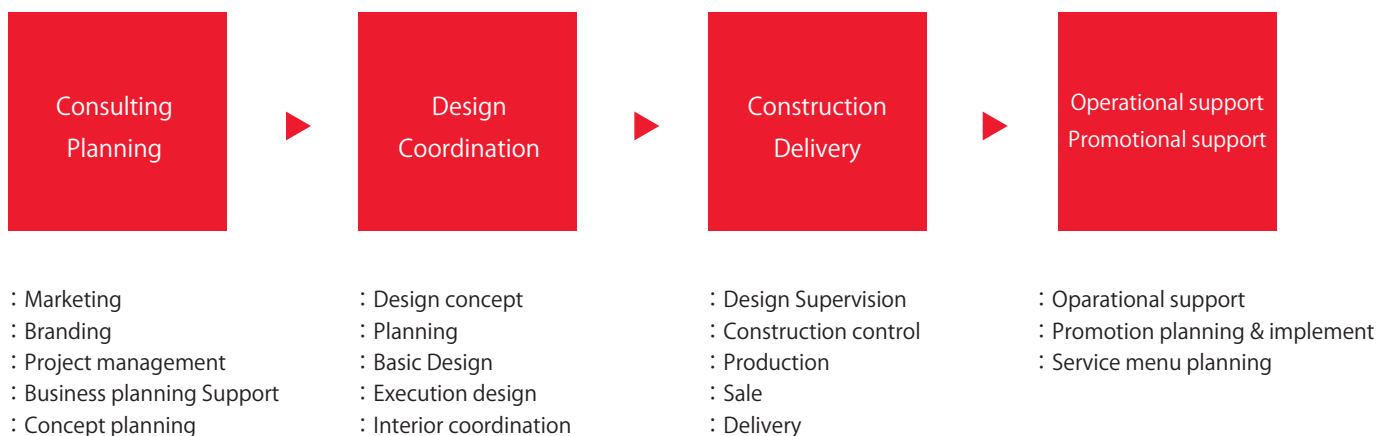

Mitsui Designtec, as a member of the Mitsui Fudosan group, is a leader in developing and constructing housing, offices, hotels, commercial facilities and medical facilities. Interior space design and furnishing of all facility types is our forte, with decades of experience under our belts. Interior space furnishing design and selling is a pillar of another of our businesses, since its inception in 1980. We are THE leader and central presence in the Japanese interior furnishing industry, receiving praise domestically, as well as abroad. In Tokyo, where we are headquartered, the Olympic Games and Paralympics of 2020 will take place. With new facilities, and even with buildings having a historical background, we are active and expanding in the area of renovation in recent years with regard to the interior redesign and refurnishing of offices, hotels and commercial facilities. Over the years, our design strengths, that developed in the housing industry, were further evolved by the "-design power of the cross-over" - leveraged from our profound experience in offices, hotels and commercial consulting, design, and furnishing - which allows us to make use of integrated features in every other kind of facility so that customers will be comfortable, regardless of whatever space you need to function in - and where real human beings can be satisfied and thrive.

Crossover Design

The Crossover Design techniques we employ can be highly productive, efficient and time-saving in the life of any organization. Leave it to us to maximize your inner spaces, flow and functions, via our professional design and engineering. This is a unique service not found in other companies.

BUILDING

We improve the overall value of buildings for our customers. Building renewal as well as changes in function and utilization, as a result of interior redesign and makeover, with an eye to the future, will all enhance the asset value of your building, allowing you to achieve critical differentiation from your competitors.

◀ YEBISU GARDEN PLACE GLASS SQUARE
Construction

HOTEL

We conduct a total review of all accommodation spaces, including hotels. Thinking always from both the point of view of users and operators, and enticing occupancy by repeat users, with an eye to operating efficiency improvement, we create a truly unique accommodation chosen to match a unique personality profile.
